

# References

Readers may also wish to look at the reference list in the companion volume, *Road to Growth* (McMahon 2000). It can guide those who wish further pursuit of the themes of this book, especially the successful policy routes followed by some previously lagging economics in Europe and regions of the United States.

For a more complete bibliography pertinent to both volumes, consult the AIMS Web site: [www.aims.ca](http://www.aims.ca)
